Guangzhou Bems Electronics Co., Ltd.

ABOUT US

Guangzhou Bems Electronics Co., Ltd. is a solution specialist in commercial display project, combining software & all kinds of digital signage development, production, sale with service. We are the manufacturer of digital signage since 2012. We research and develop independently, produce and sell LED/LCD digital signage for advertising, interactive flat panels for schools teaching or companies meetings, queuing smart kiosk, self service smart kiosk and other intelligent terminal equipment and software kit.

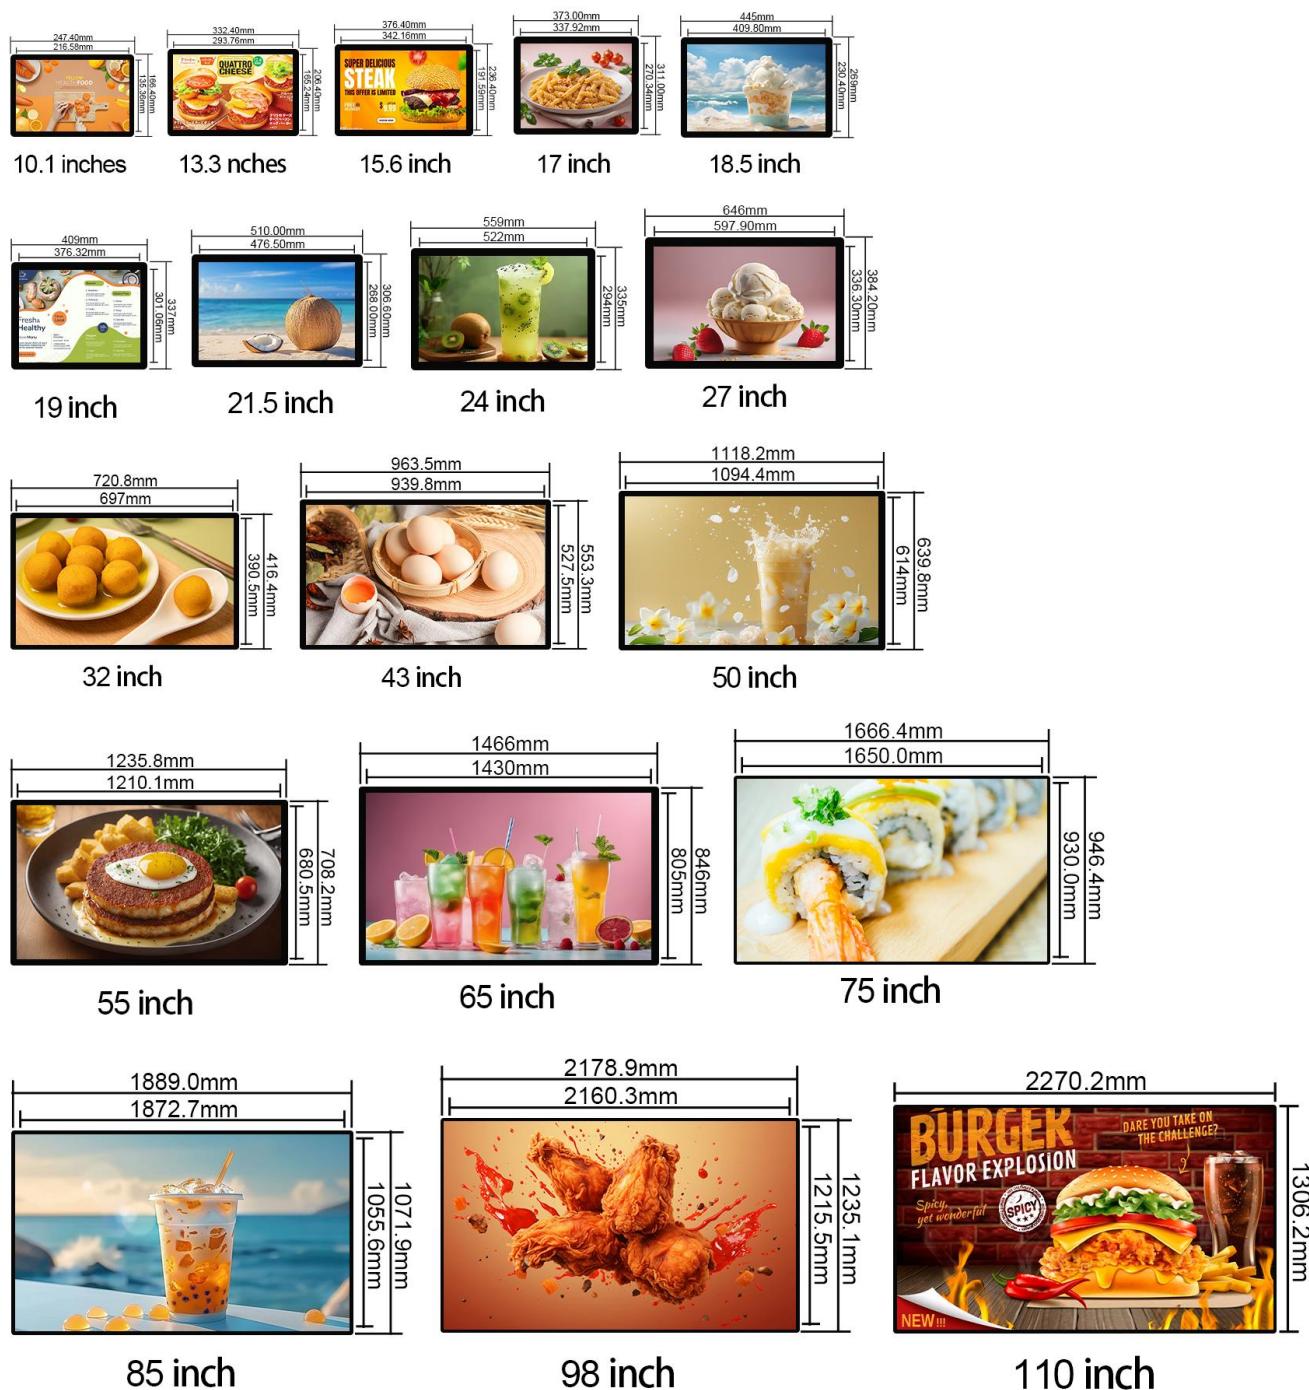

Our products have obtained a number of international and domestic quality certificates and high-tech enterprise certification. Up to now, we've already provided matching software with digital signage solution to exceed 20,000 domestic and foreign enterprises, including Xian Subway、Sunac、Wanda、industrial and commercial, postal service and other well-known enterprises.

Since the establishment in 2012. we've experienced several leapfrog developments and now have owned production and office area over ten thousand square meters over 100 employees and around 20 senior technicians and senior management. There are three professional dust-free workshops with complete equipment, six production lines and the yearly maximum capacity can even reach million pieces machine.
